

Keepor

Sometimes you FORGET something

UMBRELLA?

WALLET?

or anything else?

**You want to find it but don't
know where it is!!**

Oh no...

**The only way is to buy another
one?**

**This goes again and again,
and never stops...**

SO WE MAKE THIS

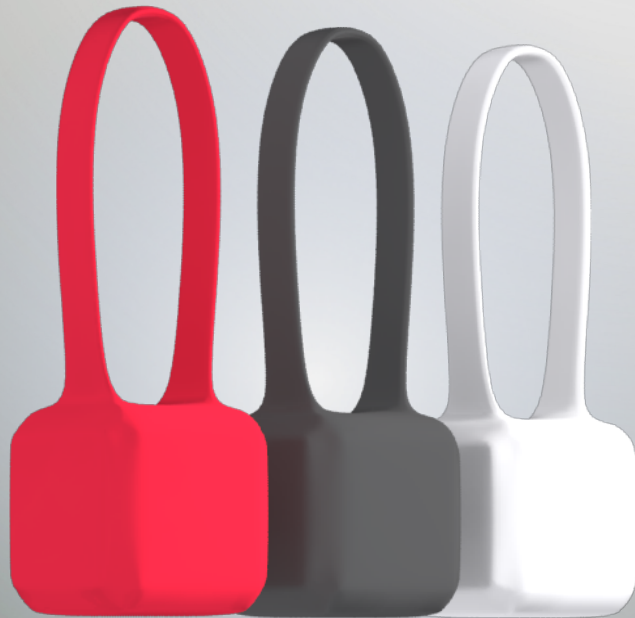

Keep

NEVER

**forget anything
anymore.**

Keep'r

Tiny

Fashionable

Light weight

Unobtrusive

Motion Sensor

Waterproof

Easy to attach

Classification

FIND IN

Principle

Use Keepr to connect with your smartphone. The motion sensor turns on Keepr when it moves. It sends a Bluetooth signal to your smartphone to remember its location. When the distance between the smartphone and the Keepr is >200 meters, app will alarm you.

**You can choose
which item it is.**

DONE!!

Situation

When you leave your home...

Keepr will remind you to
take the umbrella.

Situation

When you leave the
restaurant for some time...

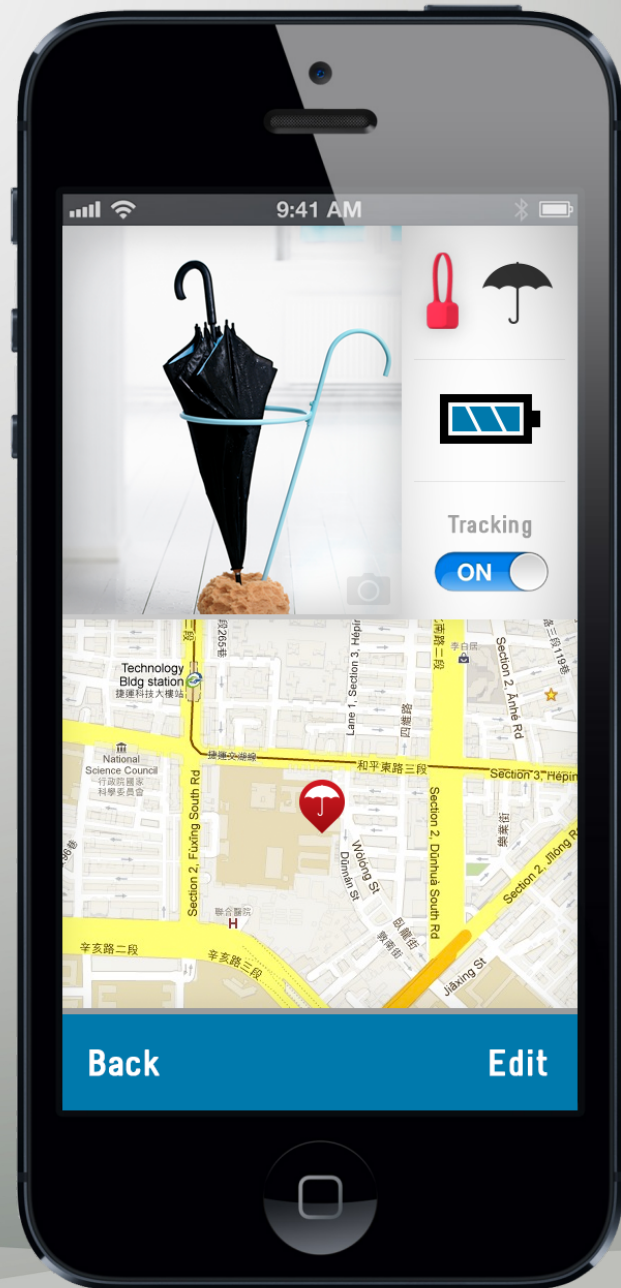

Keepr will tell you if you
forgot the umbrella.

Situation

Click “Where is it?”

Keepr will tell you the
information of your lost
things.

**WON'T
FORGET
AGAIN!!**
